

YEOVIL DIVISION EQUIPMENT

ITEM	HOLDER	USE
Observation Hive (Nuc box) Langstroth	Sharon & Malcolm Blake	Observation of bees on one frame
Observation Hive National	Marvin Collins	Observation of bees on 3 frames
WBC Hive	John Carnegie	A traditional (empty) hive for public displays
9-frame radial honey Extractor and stand	Nic Bard	A easy to use honey extractor for loan by any member of the division to extract their honey crop
Settling tank	Nic Bard	A tank to allow your honey to settle (to allow the wax and air bubbles to float to the surface) before bottling or storage
Demonstration Net	Bill Patterson	
Heated Uncapping tray	Nic Bard	A heated tray to melt wax and honey for cappings and comb with set honey
Library	Tasha Stevens	A well stocked library of beekeeping books for free loan by any member.
Veils	Sharon & Malcolm Blake	We have 10 veils for use by anyone interested in beekeeping at our outdoor meetings
2 Microscopes	Steve Attrill & Sharon/Malcolm Blake	These allow the beekeeper to inspect his bees for signs of Nosema or Acarine. Our April meeting should make these uses clearer.
Portable overhead projector (OHP)	John Carnegie	For use by any member of the division for displays or talks on beekeeping subjects,
Projector Screen	John Carnegie	Projector screen for use with the overhead projector

Course-in-a-Case	John Carnegie	Beekeeping teaching aid
PA System	Steve Attrill	PA speaker, 3 microphones (lapel, hand and head) plus spare batteries.

As Sep 17.
